proof of the worthlessness of these mixtures, than that evidence which is afforded by the very advertisements of their manufacturers. The frequent extravagant puffs which are thrust before the public, bear on their front the impress of the most impudent quackery. Powers are ascribed to Sarasparilla which it does not really possess, and certificates of alleged cures, represented to have been effected by its use, are paraded at length, whist every educated phy sistian, well knows that no such results could by any possibility have followed from the use even of the most carefully prepared extracts of Sarasparilla. It is under these circumstances, and in accordance with their extended plan of suppressing all descriptions of medical imposture, that the "College of Medicine and Pharmacy" offer to the notice of the public.

This Genuine Extract of Sarasparilla.

This article has been prepared at great expense, according to the new process of the Parisian pharmaceutists, and is confidently denominated the endy really valuable preparation of Sarasparilla now offered for sale in this country. Together with the active principle of the Smilar officiralis—the best species of the root—the College have incorporated that peculiar modification of sugar, which has been termed glycyrrhizin. In the "Extracts" of the nostrum-venders and certain druggists, the comuon extract of liquorice is the chief ingredient, and can readily be detected. Bu' it is proper to state that in most cases this extract of liquorice is dulterated, and contains capper derived from the pans in which the decoction of the root is evaporated. The College wish thus particularly to guard the public against the pernicious tendency of mixtures, containing large quantities of this poisoned liquorice. The "Extract," prepared by the College, contains also an appropriate quantity of the peculiar crystallizable principle, coltained from that valuable vegetable bitter, Gentian, (so called from Gentius, King of Illyria, who first discovered its great virtues.) A small por

(g- 100 MINUTE GUNS WERE FIRED ILAST night in honor of the return of the whig members of Congress, and every-body has been talking about the complimentary dinner to Lord Ashburton, just as though in this Republican city every man was not a Lord!

There are a good sprinkling of "Lords of Creation" who dine every day at theremowned Florences Nos. 239 and 240 Broadway; his celebrated restaurat is the most splendid affair in the city, embellished as costly and neat as a Turkish Harem. The "Bloods" are fond of his oysters, they open rich, fresh from their native beds—his Wines and Liquors are choice and recherche. Such of our southern friends as have not lionised here are advised to call and "stand not in the order of your going, but go at once."

THE ARCADE BATH.—There is no way in h the introduction of the Croton water is more efficaand beneficial in its effects thas in the enjoyment of m Bath, which can at all times be obtained at the de Bath in Chamber street. The cleansing qualities water is a decided improvement in that pleasing, and e same time healthful luxury. The urbanity and cannot demanly demeanor of the proprietor, and the prompt cady attention of those in attendance secure a patronto the establishment which the proprietor richly is.

QF EVERY MAN HAS HIS TROUBLES.—We now of few persons so overwhelmed with misery as Bartom of the American Museum, and the worst of it is, he as no remedy. The peculiar trouble under which he lasors is produced by a perfect jam and throng of visitors ho crowd his immense establishment to such a degree, ay and night, that the poor fellow can hardly find room turn around. He has enlarged his saloon, and added a ew room, one hundred feet long to his Museum, but "the ry is still they come" The Mermaid draws its thounds, and the other attractions their tens of thousands wo performances are given in the Lecture Room every y, to separate and distinct audiences, and even then it is ith difficulty that all are accommodated. Poor fellow to we pity him thus to be overwhelmed with cash and astomers.

OF CHATHAM THEATRE.—Dr. Bird's fine tragedy of the Broker et Bogota, having been some time in prepa tion, is produced to night for the first time in many years. Mr. Forrest, (for whom the piece was written,) appears as Baptista Febro, the Broker; J. R. Scott, as Antonio Cabarero; Hield, as Ramon; Stevens, as Francisco; Miss Clifton, as Juana; and Mrs. Hield, as Leonor. The farce of the Turnpike Gate is performed in conjunction with the above, forming an attractive entertainment.

MONEY MARKET.

Friday, Sept. 6,-2 P. M. Affairs look a little better to-day; United States Treasury notes sold at 1½ per cent premium. Indiana Bonds fall off ½, and Harlem Railroad declined a trifle. All other stocks look better, and are better, than they were yester-It was stated in Montreal, on the 31st ult., that the

agencies of the banks of Western Canada in that city,took their notes at one fourth of one per cent discount. On the same day the prices of exchange on New York were 22 three days, of private drawing. We believe the banks

Bank Directory in session lately, decided that specie pay-ments shall be maintained in good and full faith by all the branches, until, if necessary, they have paid out their last dollar; but of this there it no guarantee. It is, therefore, for the dealers to continue to be governed by the faci-lities to operate through Ohio agencies.

There is every indication among our mercantile classes of a much better business this fall than for some time past Confidence seems to have gained ground somewhat, all though our large importers fear the protest of a great amount of jobbing paper ere winter sees in. We think that if our jobbers get through without much trouble, business next spring will open with fine prospects. The actual wants of the country are large, and must be met. We trust, therefore, that we have touched bottom, and that commercial affairs will now be built upon a sound and healthy basis. There is nothing to prevent this being

Corn Trade.

Flour is quiet here, Wheat is quiet, Corn is quiet. We have no material change to notice in any of these arti-

have no material change to notice in any of these articles.

The receipts of western produce, particularly wheat at Buffalo, are astonishingly light, notwithstanding the advanced state of the business season. At Cleveland they seem to keep pace with previous seasons. The importation of western oats appears to have ceased altogether. Sales of wheat continue to take place at 92 cents, at which 1000 bushels new lilinois were taken on the 98th ult., by one of the Black Rock millers. A lot of good Steubenvills flour, via Cross Cut Canal, 350 bbls, brought \$4.20, but almost any of the fancy brands bring six cents a barrel more. Corn is in better demand and 36 cents has been offered, but there is none unsold in the market.

The receipts of flour and wheat, via canal at Cleveland during the last week in August were heavy, averaging 11-1000 bushels wheat and 3,000 bbls flour per diem, as follows:—From 22md to 28th Aug., 1842, Wheat 76,324 bush., Flour 21,641 bbls, making the total canal receipts at that place during the first twenty seven days of Aug., as fol-

Columns, S. C., Aug. 26.—We have not heard of the sale of a single bale of fine Cotton this week. There has been a little coing in the poorer qualities, at 4 a 5 cents. We continue quotations 4 a 5 cents, which are merely nominal.

been a little coing in the poorer qualities, at 4; a 5; cents. We continue quotations 4; a 5; cents, which are merely nominal.

CHARLESTON, Aug. 27.—The operations in Upland Cotton since the 20th instant, have been very limited. Buyers have taken during the week but 540 bales. The following is the result, viz: 35 at 5; 13 at 5; 33 at 5; 18 at 5; 21 at 6; 30 at 6; 31 at 7; 64 at 7; 13 at 7; 48 at 7; 42 at 8; and 9 bags at 8; cents per lb. The receipts of the week are 548 bales. The sales in Long Cotton are 15 bales Sen Island at 14 and 15; and 2 bales stained do at 5 and 7 cents per lb.

Ries—The transactions in Rice embrace 604 therees. The sales have generally been in favor of the buyer. The following is the result:—208 at 2; 262 at 2; and 134 tes \$2.7-16ths per 100.—Nothing has been done in rough rice. New Onleans, Aug. 20.—Transactions in Cotton have been very limited, owing to the small stock on sale; and but for the interest excited by the arrival of a few parcels of the new crop, the market would have presented a dull character. The receipts of new during the week amount in all to 260 bales, and the staple is pronounced to be superior. As to color, a few of the parcels look very well. The sales of the new crop emerce 143 bales, at 7; to 8;6 fer parcels closing from good middling to Liverpool fair. Our quotations below are only applicable to old Cottons. We notice the sales of the week as follows, viz; 20 bales La and Miss., new crop, at 7; 19 do at 7; 12 do at 8, 40 do at 8; 12 do at 7; 3; 20 at 7; and 30 do at 7;—22 old crop at 5, 54 do at 5;c—25 North Alabama at 5, and 89 Western Dristricts at 5;c.

There is no improvement to notice in the demand for Sugar. A few small parcels have been taken for shipment to the North, but principally all that has been bought is destined for the Western markets. Our quotations for inferior to good ordinary are 2; a 3 cents; common to fair 3; a 4, prime 4; a 4; cents per lb. The asking rates on plantation are 3 a 3; cents.

Provision Market.

We advise the poorer classes to visit the country market and purchase their meats there. They should keep away entirely from the monopoly butchers and let the rich support and encourage extortion if they please. Peaches and Butter are the only articles that continues dear. There is such an abundance of all kinds of vegatables that prices cannot remain high. Peaches are in the hands of speculators which explains why they are so dear.

APOLOGY.

A POLOGY.

A Narticle under the above head lately appeared in the multifarious journals of this city, which in its tenor conveyed a signification at ineffable variance with its intended emport. As truth is the best of apoligies, here it is >-1 aver that I, with the view of conceiliating family prejudies, inadvertently adhibited may mane to a paper, represented to me as a true dilected that put in my hand, and hurrielly seamed over, but in its nature opposite in meaning, and with deep draught policy entirely falsified. Such being the case, I repeat the same, and adhere to all other previous assertions as true and correct.

IMPORTANT TO FEMALES—DR. BOSTWICK, 75

Chasher street, pays carticular attention to the treatment Chamber street, pays particular attention to the treatmen of the Diseases of Women. His success in curing the se obstinate and painful female con plaints which has haffled the skil of others, has induced many to place themselves under his treat MEDICAL AID.

MEDICAL AID.

DR. GREGORY, long assust med to prescribe for diseases of a private nature, resides at 34 Mott street. He has been familiar with these complaints many years, and having been a particular and close observer of cause and effect, he has outsined a thorough practical anoughedge of this branch of his profession, which has enabled him to introduce some values improvements into his practice. He does not boost of making rapid and friest, cures, but his savisfaction is Uperformed to the procession of the performance of the property of the patient of the procession of the performance of the procession of the performance of the p

not changing to a chronic form, to say the least, is very likely to terminate in a permanent debility, or perhaps something worse.

Dr. Gregory deems it worthy to remark, that he has often been applied to for relief by patients who having been treated for the complaint, were discharged as being carred, and then selves were of the opinion that it was really so. A few days clapse and the disease begins to show itself again; in some instances only occasionally, in obesis again the relapse is permanent, inducing at length a chronic inflammation, attended with other visible effects, which it would be indelicate to describe in an advertisement, but which will be recognized readily by eve y one so afflicted. It is such a state of things as this that terminate in stricture, and itsis by surgical means only that a siricture can ever be permanently removed. Not so, however, with the chronic inflammation, or rather induration; for in this stage of the malady there is a care, and that too, by mild and simple means. Dr. G is proud to say that he has discovered and brought to his aid, a remedy never before used in these cases, which has proved successful in every instance where it has been applied? a dhas effected cares in cases of from 3 to 15 years' duration. This announcement is not made through motives of vanity and love of boasting, but simply to inform those in need of the remody where it may be found. Those seeking Dr. Gregory will find him at his own house, (not a drug store,) 34 Mott at ext, about 150 yars from Chatham squary. All letters must be pot paid.

Dr. Gregory has published a little treatise on the above subjects, price 50 cents. For sale by the author, and also by Messrs. Sands, Druggists, in Fulten-street, and both corners Broadway, corner Market-street.

BRUN & CO., 115 William street, formerly Brun, Larosure & Co.,—will open in a few days, twenty cases Firis Artificial Flowers. Feathers, &c., now landing from last arrivals.—This establishment is secieving from their, house in Paris by every Havre packet, the newest styles of flowers and ferthers, as they appear in that centre of fashion.

This arrangement enables them to have constantly on hand a most fashionable assortment or the above articles. Dealing by far more largely in this line than any other establishment in the city, they can afford to sell at the very lowest rates and on the most reasonable terms.

BULWER'S DEVEREUX,
PRICE TWENTY-FIVE CENTS.

HARPER & BROTHERS, No. 22 Cliff street, will publish
on Friday morning, the 2d into,
DEVEREUX, A Tale By the author of "Petham," "The
Disowaed," &c. With a beautiful engraving on steel. Price
twenty-five cents. Being No. 3 of the Library of Select
Novels.

They respectfully announce their intention to publish an octavo edition, of the standard novels, such as those of Mr Jamea,
Sir E L Bulwer, &c., at the very low price of twenty-five cesteach novel will be consprised in a single volume, yet the
type (brevier) will be large enough to covarie easy legibility.
The passes will be in double columns.

A volume will be published about once a fortnight, or oftener, if occasion shall require. In this respect the publishers wilbe governed by the supply; whatever good works appear will
be promptly issued in the octavo edition. Several volumes
have already been published, which will serve as a specimen
to the entire series.

The works introduced in this edition will be selected for their
merif, and not because of the r smallness of size, and will be
given complete, without omission or abridg ment, and in the
neatest and handsomest manner. The paper will be of excellent quality; the sheets will be dried and pressed, so that the
volumes will be in order for binding; and as the price is lower
than that of any edition or form in which such works have ever
them that of any edition or form in which such works have ever
them that of any edition or form in which such works have ever
them published here or elsewhere, the publishers confidently
anticipate a liberal encouragement from the public.
